

SB 1383

Provider Services Agreement with SCS Engineers for Route Contamination Review Services

*Board of Directors Meeting
September 22, 2022*

Route Review Program Requirements

Jurisdictions must:

- ✓ Review every route every year (68 Routes)
- ✓ Assess container contamination of prohibited contaminants
- ✓ Alert generators if prohibited contaminants are observed
- ✓ Report findings to CalRecycle in the Electronic Annual Report

RFP Process & Results

- RFP sent to six firms
- One response: a team of two firms
- SCS/Envirolutions
 - Assisted with the Protocol and Pilot
 - Working relationship with Republic Services
 - Familiarity with Recyclist Software & service area
 - Technical Assistance experts

Route Review Plan

Sector	Number of Routes	Number of Accounts (25 Accounts Per Route)	Number of Container Reviews Per Day (All 3 Commodities: Landfill, Recycling & Organics)	Number of Days For Container Contamination Reviews
Residential	44	1,100	4 Routes Per Day (100 Accounts) 3 Commodities (300 Lid Flips)	3.5
Commercial	14	350	4 Routes Per Day (100 Accounts) 3 Commodities (300 Lid Flips)	1.5
TOTAL	58	1,450		5

Account Selection

- Routes are set by Republic Services
- Accounts per route range from 200 – 1100 depending on size of collection vehicle
- Jurisdictions determine how many accounts per route shall be reviewed
- 25 accounts per route is based on an SB 1383 approved alternative contamination assessment approach which requires 25 samples per route.

Route Review Coordination

- Coordinate with Republic Services to identify accounts for each route
- Inform Member Agency staff and authorities about route review timing and location
- Newest RES and COM Service guides + website includes info. alerting generators
- No photos
- If resistance is encountered, move on

Service Guides Announcement

“SB 1383 also requires local jurisdictions to monitor contamination and proper sorting of organics by performing annual route audits. RecycleSmart or its contractor may be in your neighborhood throughout the year assessing your carts.”

SB 1383 web page Announcement

“SB 1383 requires local jurisdictions to monitor contamination and proper sorting of organics by performing annual route audits. RecycleSmart or its contractor may be in your neighborhood throughout the year assessing your carts (residential and commercial). RecycleSmart is only looking for proper sorting of materials, and may leave outreach on your carts with helpful tips and suggestions.”

Follow up and Findings

- “Oops tags” and “Great Job” tags for residents/small businesses
- emails/phone calls for large commercial/MF
- Data Analysis
- Identify hot spots for targeted follow up
- Preparation of information for annual reporting to CalRecycle

HELP YOUR COMMUNITY BY SORTING PROPERLY

California state law SB 1383 requires local jurisdictions to monitor contamination and proper sorting by performing annual audits. Visit RecycleSmart.org/1383.

CONTAMINATION CIRCLED BELOW
