Diversion, Education, Enforcement and Reporting Programs

February 23, 2023
Board of Directors Meeting

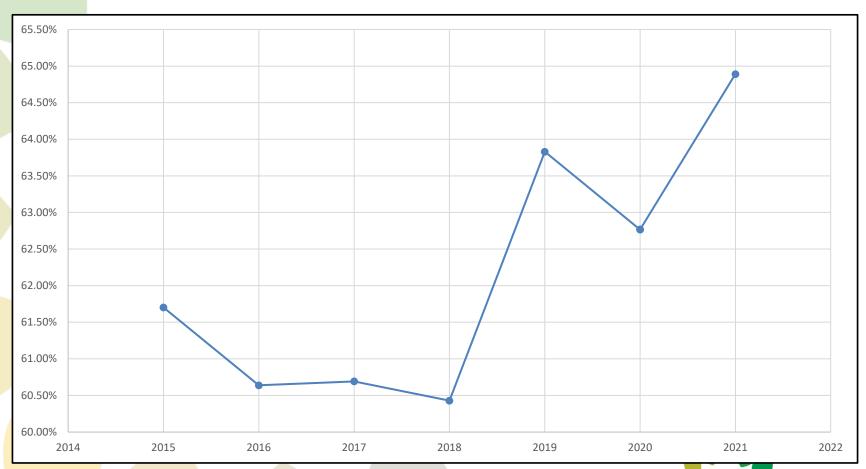

CalRecycle Diversion Data for 2021

- Electronic Annual Report
- Per capita disposal in 2021 was 3.3 lbs./day
- Diversion rate
 equivalent is 65%

Diversion Equivalent Trend

By Sector Disposal & Diversion 2022

	Single-Family	Multi-Family	Commercial	C&D	Total
Disposed	43,337	10,226	27,364	2,663	83,590
Diverted	89,368	4,831	17,212	11,407	122,818
Generated	132,705	15,057	44,576	14,070	206,408
Percent	67%	32%	39%	81%	60%

Construction & Demolition Debris Diversion

- Integrated into Member Agency building permitting process
- RecycleSmart pays for Green Halo Waste Management Plan tracking software
- Up to 25% of CA waste stream
- Deconstruction

SB 1383

Short-Lived Climate Pollutant Reduction Strategy "Keep Organics Out of Landfills"

- Reduce organic waste disposal 50% by 2020 and 75% by 2025.
- Rescue for people to eat at least 20% of currently disposed surplus food by 2025.
 - Organics, Recycling and Landfill Service
 - ✓ Food Recovery
 - ✓ Procurement
 - ✓ Outreach and Education
 - ✓ Compliance & Enforcement
 - ✓ Capacity planning
 - Record Keeping and Reporting
 - ✓ Ordinance

SB 1383 Member Agency Responsibilities

Monthly Member Agency Liaison Meeting

Procurement

Recycled paper, mulch & compost + related record keeping

CalGreen

Recovery of organic waste from mixed C&D + adequate space for containers in commercial buildings

Water Efficient Landscape Ordinance

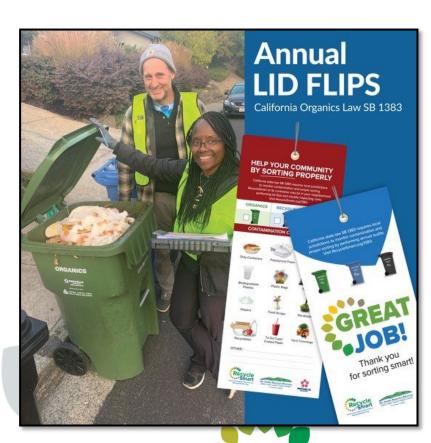

Adopt a WELO or enforce state model

SB 1383 Enforcement Protocol

- Enforcement Planning
- Waivers
- Annual Route Reviews
- Desktop Review
- Tracking & Reporting

Edible Food Recovery

- Maintain required Tier 1
 (2022) and Tier 2 (2024)
 generator lists:
 - Tier 1: Supermarkets and grocery stores, food service providers and distributers, wholesale food vendors.
 - Tier 2: Large restaurants, hotels, health facilities, large venues and events, Local Education Agencies.
- Outreach and education
- Enforcement
 - Agreement with Contra Costa Health Services for Tier 1 inspections.

Schools Education & Diversion Program

66 Public and Private K-12 Schools

- Training, education and supplies to support proper sorting
- Assemblies
- WasteBusters Awards
- Internship Program
- Student Scholarships
- Edible food recovery
- Reusables

Reuse & Cleanup Days

Single Family Homes

31,933

Reuse setouts in 2022

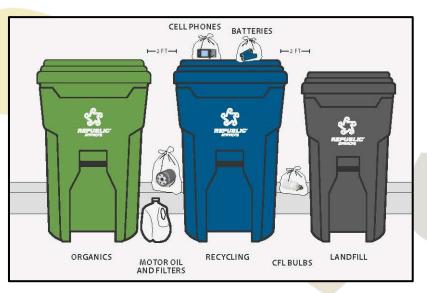

Special Materials Handling

- CA Product Stewardship
 - Home-generated sharps
 - Batteries
- 50 tons of batteries in 2022
 - Curbside
 - Reuse Days
 - Retail drop-off

Home Composting Outreach

- 2016 US Composting Council National Program of the Year Award
- 176 workshops since 2009 with over 7,000 participants
- Vermicomposting & Bin Building workshops starting in 2012
- Virtual workshops
- CompostSMART
- Certification (Republic bill reduction)
- Compost Giveaways

Outreach and Education

RecycleSmart

What's the takeaway on take-out?

During the pandemic, we've supported local restaurants by ordering lots of food to go. "Date night out" became "date night in" as our favorite eateries prepared meals for us to enjoy at home.

Helping these businesses survive and thrive is a great way to keep our communities strong. But what should we do with all the extra take-out packaging we've collected? And is there any way to reduce the clutter we don't need as we move into a summer of takeout picnics?

Take heart, take-out fans! This issue gives you all the tips you need to solve your carryout conundrums. Check inside for a full menu of what goes where—from plastic clamshells to compostable containers, we've got you covered.

Here are a few tips:

- Don't take stuff you don't need. Eating at home? Ask the restaurant not to include plastic utensils or plates with your order.
- Be an advocate for change. Encourage your favorite spots to shift to paper-based compostable containers, if they haven't already.
