1. INTRODUCTION AND BACKGROUND

RecycleSmart (Central Contra Costa Solid Waste Authority) invites companies and individuals to submit their qualifications to provide part-time field compliance/recycling contractor services to monitor and verify garbage company compliance with RecycleSmart's solid waste franchise, and customer compliance with local and State requirements, primarily recycling requirements.

RecycleSmart is a local government joint powers authority, whose member agencies include the Towns of Danville and Moraga, and the Cities of Lafayette, Orinda, and Walnut Creek, and surrounding unincorporated central Contra Costa County.

RecycleSmart is responsible for managing the solid waste programs for its member agencies, including developing and implementing programs that enable its member agencies to meet or exceed the State-mandated goal of reducing and recycling solid waste. Currently, RecycleSmart has a franchise agreement with Republic Services for the collection, transfer, and disposal of residential and commercial solid waste, recycling, and organic waste. Republic also provides compost processing for residential and commercial organics and transfers commercial food waste to EBMUD for digestion processing. RecycleSmart contracts with Mt. Diablo Recycling for recyclable processing and for residential reuse collection service.

Current residential recycling services offered by Republic Service include:

- Weekly collection of solid waste, recycling, and green waste. Residential food waste may be included in the green waste carts.

Current commercial recycling services offered by Republic Service include:

- Weekly collection of recycling and organics. Businesses have the option of using cart or bin services with varied capacity to meet material generation and enclosure space needs.
- Separate commercial food waste collection services for large generators such as restaurants and grocery stores.
- Waste audits, employee training and technical assistance.

Republic uses an InfoPro database in the office and the Recyclist application in the field.

Current services provided by Mt. Diablo Recycling include:

- Collecting reusable items on Reuse Days and managing their distribution.
- Processing of all RecycleSmart area recyclables.

Copies of the franchise agreements with both companies are available on the RecycleSmart website, at <https://www.recyclesmart.org/franchise>

Under our local law, commercial and multi-family properties with five or more units are required to recycle. (A copy of Ordinance 15-1 is attached for reference.) RecycleSmart does not have local laws requiring green waste or organics recycling, but under AB 1826, the following requirements may apply to certain commercial customers in our jurisdiction:

- As of January 1, 2017: Businesses that generate 4 cubic yards of organic waste per week shall arrange for organic waste recycling services.
- As of January 1, 2019: Businesses that generate 4 cubic yards or more of commercial solid waste per week shall arrange for organic waste recycling services.

2. SCOPE OF SERVICES

The work will involve driving, in-the-field investigation, computer work, and both independent work and collaborative work with contractors and customers. All activities will be under RecycleSmart staff oversight and coordinated with Republic Services' field staff. The primary duties of the contractor will include, but are not limited to:

- Confirm compliance with in-the-field franchise agreement terms and verify that all processes are in accordance with current franchise requirements.
- Confirm customer compliance with local and State solid waste and recycling requirements.
- Perform professional administrative tasks reviewing and investigating field compliance with franchise agreements.
- Conduct on-site interviews with contractors and customers and evaluate contractor work performance to monitor contract compliance in the field.
- Conduct on-site customer and franchise contractor visits to verify the functionality and legitimacy of services provided to physical premises, and day-to-day operations pertaining to solid waste services.
- Prepare clear and concise reports and provide meaningful analysis of the information.
- Address delicate or sensitive issues in a tactful, effective manner with franchise contractor.

The proposer selected should also have knowledge of:

- Solid waste services
- Local and State Codes, statutes and laws related to solid waste
- Procedures and guidelines used to investigate customer service complaints
- Contract administration and management
- Computer databases and applications
- Organics/Composting Facility Operations
- Both theoretical and practical aspects of contract management, code compliance, and solid waste services

**CENTRAL CONTRA COSTA SOLID
WASTE AUTHORITY**

ORDINANCE NO. 15-1

MANDATORY COMMERCIAL RECYCLING

CENTRAL CONTRA COSTA SOLID WASTE AUTHORITY

ORDINANCE NO. 15-1

MANDATORY COMMERCIAL RECYCLING

BE IT ORDAINED by the BOARD OF DIRECTORS of the CENTRAL CONTRA COSTA SOLID WASTE AUTHORITY, as follows:

Section I. Purpose and Findings.

- A. The Central Contra Costa Solid Waste Authority (the “CCCSWA”) hereby recites and finds as follows:
1. The California Integrated Waste Management Act of 1989 requires that each city and county divert 50% of its waste stream.
 2. Assembly Bill 341 (“AB 341”) establishes a new diversion goal of 75% by 2020 (Public Resources Code sec. 41780.01). AB 341 also requires mandatory commercial recycling for all Responsible Parties generating four (4) cubic yards or more of waste per week, and for multi-family residential premises with five (5) units or more (Public Resources Code sec. 42649.2).
 3. The diversion and recycling of Recyclable Materials will assist the CCCSWA in helping Member Agencies achieve these state-mandated goals and help postpone the need for new landfill capacity.
 4. The member agencies have previously delegated their authority to the CCCSWA to enter into agreements concerning solid waste, recyclables, green waste and food waste and to implement their SRREs and HHWEs.
 5. Efforts by the CCCSWA and the private sector to encourage voluntary diversion of commercial and special event recyclable materials have not achieved desired levels of diversion. Additional efforts are necessary to ensure continued compliance with the requirements of the State recycling law and to ensure maximum recovery of valuable resources.
 6. The Board of Directors of the CCCSWA has determined that consistent achievement of the 50% landfill diversion goal and future achievement of 75% by 2020 will be promoted by the jurisdiction-wide collection of Recyclable Materials from Commercial or Industrial establishments.
 7. The CCCSWA has initiated new franchised solid waste services commencing February 28, 2015 to serve residential, commercial and other waste generators within its jurisdiction. These services include commercial collection and processing services designed to meet and exceed State and local diversion goals, including the commercial recycling mandated by AB 341.

8. This ordinance was preceded by Ordinance 12-1 (which expired February 28, 2015) and Ordinance 96-1 (which was terminated on September 26, 2012).

Section II. Effective Date.

- A. This Ordinance shall take effect on June 1, 2015. This Ordinance will be reviewed periodically once implemented and amendments will be recommended to the Board of Directors, as needed, to improve effectiveness and performance of commercial recycling services governed by this Ordinance.

- C. All Recyclable Materials shall be placed for collection in covered collection containers conforming to the following requirements:
 - 1. No container shall be loaded beyond its capacity.
 - 2. It shall be the Responsible Party's responsibility to keep the containers used for the storage and collection of Recyclable Material generated on the Premises in a clean and sanitary condition.
 - 3. No material or containers shall be kept or handled in such a manner as to become a nuisance.
 - 4. No putrescible materials such as Food Waste shall be commingled with Recyclable Materials, unless specifically permitted.
 - 5. No Recyclable Material shall be allowed to become odoriferous or a producer of vermin.
 - 6. Lids on containers shall remain closed at all times while stored or placed for collection.
- D. When self-hauling, each Responsible Party shall ensure that Recyclable Materials generated at its property/ies will be taken only to a Recycling, Composting or Digestion Facility or make other arrangements to ensure that the materials are recycled or processed and not delivered to a landfill for disposal. In these cases Responsible Parties shall not dispose of, or arrange for disposal of Recyclable Materials by placement in a landfill except in an emergency situation, or when no viable markets or Recycling Facilities are available, as determined by the CCCSWA Executive Director, or designee. Further, all Responsible Parties are encouraged to consider recycling additional materials, whether or not they have been specifically designated.
- E. The Franchised Recycling Contractor shall not be held liable for the failure of its customers to comply with such regulations.

Section V. Authorization of Commercial Recyclers.

- A. No person shall provide services as a collector or hauler of Recyclable Materials generated at Commercial or Industrial Premises or Multi-Family Residential Premises within the boundaries of the CCCSWA without either being:
 - 1. The Franchised Recycling Contractor, or
 - 2. A Permitted Construction and Demolition Debris Transporter, or

3. A Special Permit Collector.

- B. Special Permit Collectors will be permitted to collect only non-standard items that Franchised Recycling Contractor does not collect as of the effective date of this Ordinance. Special permits may be issued at the discretion of the Executive Director to allow servicing of needs that are not being addressed by franchised or other authorized services.
- C. Notwithstanding the above, this ordinance is not intended to prevent the collection and hauling of donated Recyclable Materials by civic, youth, or charitable organizations, or the collection and hauling of Recyclable Materials that are sold to the vendors that collect and haul such Recyclable Materials for net compensation to the Responsible Party or Waste Generator.

Section VI. Self-Hauling by Responsible Party.

- A. A Responsible Party may transport Recyclable Materials generated at its business or property to a Recycling Facility without using the Franchised Recycling Contractor only if the Responsible Party completes its activity via Self-Hauling.
- B. Self-Hauling does not include contracting for or hiring a third party to transport the Recyclable Materials. Self-Hauling strictly prohibits payment of a third party collector/hauler to transfer Recyclable Materials unless that collector/hauler is authorized by the CCCSWA.
- C. The CCCSWA Executive Director may restrict or prohibit Self-Hauling by a Responsible Party if he or she determines, after providing notice and an opportunity for a hearing, that the Responsible Party's Self-Hauling activities violate the provisions of this Section or any other applicable law or regulation.
- D. Responsible Parties that choose to Self-Haul must keep records documenting all Self-Haul activities for a one-year period. Such records must be made available to the CCCSWA upon demand. The CCCSWA will utilize a Self-Haul report form that will include the following information:
 - 1. The name, address and telephone number of the Responsible Party's representative managing or familiar with the Responsible Party's Self-Haul practice.
 - 2. A list of the types of Recyclable Materials transported by Self-Haul.
 - 3. For each type of Recyclable Material, the amount (weight) that is being taken from the Responsible Party's business or property to a Recycling Facility on a quarterly basis by Self-Haul.
 - 4. The name and address of the receiving Recycling Facility.

Section VII. Ordinance Exemptions.

- A. Responsible Parties shall be exempt from the requirement to either subscribe to recycling service or to Self-Haul their Recyclable Materials under this Ordinance when any of the following exemptions apply:
1. **Inadequate Space and Zoning Violations.** A Responsible Party may be exempted from the requirement to segregate and recycle Recyclable Materials under this Ordinance by the Executive Director or designee, if it is determined, through a site visit or confirmation by the Franchised Recycling Contractor, that either:
 - a. There is inadequate storage space for automated lift containers, bins or roll off bins for Recyclable Materials on site and that it is infeasible for the Responsible Party to share automatic lift containers, bins or roll off bins for Recyclable Materials with a Responsible Party on an adjoining property, or;
 - b. Compliance with this Ordinance will result in a violation of zoning codes or other local agency regulations for minimum parking spaces, as officially determined by a member agency's planning agency or department.
 2. **No Generation of Recyclable Materials.** A Responsible Party may be exempted from the requirements of this Ordinance by the Executive Director or designee, if it is determined, through a site visit or confirmation by the Franchised Recycling Contractor under contract with the CCCSWA, that Recyclable Materials or Green Waste are not generated on site by the Responsible Party, owner or tenant.
 3. **Donation of Recyclable Materials to a Civic, Youth, or Charitable Organization.** A Responsible Party is exempted from the requirements to segregate and recycle Recyclable Materials under this Ordinance if it donates those materials to a civic, youth, or charitable organization.
 4. **Sales of Recyclable Materials by Waste Generator.** Nothing in this Ordinance prohibits the ability of a Waste Generator or Responsible Party to sell or dispose of its Recyclable Materials for net compensation.
 5. **Collection of Recyclable Materials as Part of On-Property Clean-Up Services.** A Responsible Party or Waste Generator is exempted from the requirements to segregate and recycle Recyclable Materials under this Ordinance if it hires a business to collect and haul away its Recyclable Materials and/or Solid Waste as part of a larger project involving clean-up services on the property.
 6. **Construction and Demolition Debris Recycling.** To the extent a Responsible Party generates Construction and Demolition Debris, the collection and recycling of that material is governed by CCCSWA Ordinance No. 12-2.
 7. **Exemption Application.** If the Responsible Party seeks an exemption, an application for such exemption shall be submitted on a form prescribed by the CCCSWA. After

reviewing the exemption request, and after an on-site review, if applicable, the Executive Director shall either approve or disapprove the exemption request.

- B. Responsible Parties that sell or donate Recyclable Materials, or have Recyclable Materials collected as part of on-property clean-up services shall report the activities to the CCCSWA as described in Section VI. D.

Section VIII. Reporting Requirements.

Reporting requirements applicable to the Franchised Recycling Contractor are specified in its franchise agreement. Responsible Parties that choose to Self-Haul must keep records as described in Section VI. D.

Section IX. Unlawful Collection of Recyclable Materials.

- A. All Recyclable Materials placed in containers, bins or roll-off bins for Recyclable Materials provided or owned by any Franchised Recycling Contractor or Special Permit Collector shall be considered owned by and be the responsibility of the Franchised Recycling Contractor or Special Permit Collector. No person shall collect Recyclable Materials placed in such containers, bins or roll-off bins, unless written permission of the Franchised Recycling Contractor or Special Permit Collector has been given.
- B. It shall be unlawful for any Person, other than a Person performing Self-Hauling, to collect, remove or transport, or otherwise organize or direct the collection, removal or transportation of Recyclable Materials without being a Franchised Recycling Contractor, a permitted Construction and Demolition Debris Transporter or a Special Permit Collector as described under Section V.
- C. The following procedures may be followed in cases where unlawful collection is taking place using roll-off bins, or other types of containers or receptacles (referred to as “bins” in this section), for Recyclable Materials:
 - 1. The Franchised Recycling Contractor will place a dated “Notification of Violation” on the unmarked bin, or on any bin identified as not belonging to an Franchised Recycling Contractor or Special Permit Collector.
 - 2. The Franchised Recycling Contractor or Special Permit Collector sends notification immediately (by phone or e-mail) to the CCCSWA staff with all available information about the bin’s owner (company name, phone, etc.). The three photos (including date stamp) described below are to be emailed the same day:
 - a. Photo of location (address on building, street sign),
 - b. Photo of bin with any contact information and the Notification of Violation posted on the bin, and
 - c. Photo of contents in bin.

3. Prior to removal and impoundment, the CCCSWA shall provide written notice to the Premises owner or occupant, and to the bin owner if known. If the bin has not been removed, marked with appropriate identification, or the CCCSWA has not been contacted or cannot determine the ownership of the bin after reasonable efforts, within three (3) business days from receipt of written notice requesting compliance with this Ordinance, the CCCSWA or its agent may impound the bin and have the bin stored as provided for pickup by the bin's owner. For purposes of this section, written notice may be accomplished by email, personal service, US mail, or overnight mail. If the notice is delivered by email or personal service, it is deemed received the same day of delivery. If the notice is delivered by overnight mail, it is deemed received one business day after it is sent. If the notice is delivered by US mail, it is deemed received five calendar days after it is sent.
4. When bins are removed and impounded by the CCCSWA, or its agent, prior to return of the bin, the Executive Director will impose and the CCCSWA or the CCCSWA's agent may bill the bin owner a fee to cover collection, storage and return of the bins improperly labeled. The fee shall be based on the Debris Box Rates ("Per Pull") for collection of one twenty yard box as published in the current Rate Year Schedule of Rates for the CCCSWA member jurisdiction where the bin is located. If a bin is not claimed within three (3) months of the date it is collected, it may be sold for removal and storage charges, or recycled, at the discretion of the CCCSWA.

Section X. Implementation and Violations.

- A. Executive Director Authority. The CCCSWA Executive Director is authorized to administer and enforce the provisions of this Ordinance. The Executive Director, or anyone designated by the Executive Director to be an enforcement officer, may exercise such enforcement powers. To the extent permitted by law, the Executive Director or designee will be given reasonable opportunity to inspect any collection container, collection vehicle load, or receiving facility for collected Solid Waste, or Recyclable Materials.
- B. Violations. Any person violating any of the provisions or failing to comply with any mandatory requirements of this ordinance is guilty of a misdemeanor. Any person convicted of a misdemeanor under the provisions of this code shall be punished by a fine of not more than \$1,000.00 or by imprisonment in the county jail for a period not exceeding six months, or both fine and imprisonment. Notwithstanding the above, the prosecuting authority may file a complaint or make a motion to amend an accusatory pleading specifying that the offense is an infraction. Every violation determined to be an infraction is punishable by (1) a fine not exceeding one hundred dollars (\$100) for a first violation; (2) a fine not exceeding two hundred dollars (\$200) for a second violation of the same ordinance within one year; (3) a fine not exceeding five hundred dollars (\$500) for each additional violation of the same ordinance within one year. Each person is guilty of a separate offense for each and every day during any portion of which any violation of any provision of this ordinance is committed, continued or permitted by such person.

- C. Administrative Enforcement. In addition to and as an alternative to any criminal or civil legal remedies that may be pursued, the CCCSWA may enforce any violations of this ordinance by administrative proceedings.
- D. Enforcement Postponed. The CCCSWA will not enforce this Ordinance for six months from its effective date.

Section XI. Severability.

- A. If any section, sentence, clause or phrase of this Ordinance is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portion of this Section. The CCCSWA hereby declares that it would have passed this Ordinance and adopted each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.
