

Your New Collection Day will be Saturday

Your regular weekday service is expected to resume in summer 2023

Starting the week of **October 15, 2022**, your new collection day for garbage, recycling, and organics will be: **SATURDAY**

As a courtesy, you will receive a telephone call the day before your new collection day.

For questions please email RecycleSmart at authority@recyclesmart.org.

Due to the recent change in vehicle weight limits on the Tice Creek Bridge on Castle Hill Road, Republic Services must utilize its smaller collection trucks to serve your area. These trucks are already at capacity during the week. Additional smaller collection trucks have been ordered and are expected in mid-2023. Until then, your new service day for all three carts will be on Saturday. Thank you for your understanding.
