

Post Collection RFP

March 29, 2024

Post-Collection

- Transfer Station
- Landfill
- Recyclables Process Facility (MRF)
- Organics Composting Facility
- Mixed Waste Processing Facility (New)

Transfer Station

- Facilities \leq 25 miles from our service area = direct haul in collection vehicles
- Facilities $>$ 25 miles from our service area require a transfer station
- Landfills, composters, and processors that are $>$ 25 miles from our service area are encouraged to propose their own, dedicated transfer station

Transfer Station

- The Authority is also requesting proposals for a “neutral” transfer station that will deliver materials to any destination facility selected by the Authority
- Propose \$/hour transportation rate
- Term = 15 years
 - Automatic renewal
 - Unless either party gives 5 years notice

Transfer Station

- “Neutral” transfer stations may propose on one or more services:
 - Solid waste to landfill
 - Organic materials to composting facility
 - Commercial food scraps pre-processed and delivered to EBMUD
 - Recyclable materials to processing facility
 - Solid waste to mixed waste processing facility
 - Mixed waste processing facility residue to landfill

Landfill

- Term = 15 years
 - Automatic renewal
 - Unless either party gives 5 years notice
- Could be just for single-family solid waste if commercial & multi-family are sent to mixed waste processing
- Authority may direct mixed waste processing residue to our contracted landfill

Recyclables Processing

- Base Bid = Materials required by SB 54
 - Plus tin/steel cans
 - Same materials we collect now except
 - No plastic bags
 - No plastic containers #4, #6, #7
- Additional materials may be included in base bid for no additional charge
- Bid Alternate = Additional materials for an additional charge
- Revenue sharing = 75% Authority
- Term = 10 years

Organics Composting

- Commingled Organic Materials
 - Yard trimmings
 - Food Scraps
 - Uncoated food-soiled paper
 - Clean wood
 - BPI-certified compostable plastic bags accepted
- Composter must guarantee Authority compliance with SB 1383 procurement requirements
- Term = 10 years

Mixed Waste Processing

- Potential new service
- In addition to source separation
- Recover compostable and recyclable items from the garbage
- Dispose of the residue
 - May propose own landfill
 - Authority may direct residue to its contracted landfill
- No recyclables revenue share
- Could be just for commercial & multi-family
- Term = 10 years

Non-Negotiable Terms

- Rates for post-collection services the same regardless of which company the Authority selects to collect or transfer the materials
- Post-collection agreements must be signed before collection RFP is issued in October 2024
