## SRRE Programs

Program Name	Program description
<input checked="" type="checkbox"/> 1020-SR-BWR Business Waste Reduction Program	Commercial waste reduction is encouraged as part of CCCSWA outreach, including site audits performed by the franchised hauler, print and online outreach, and public education conducted by CCCSWA staff and contractors. Source reduction activities are not tracked by weight at this time. CCCSWA initiated two contracts to encourage 1) the use of reusables for in house dining and, 2) the use of reusables for take out.

<input checked="" type="checkbox"/> 1040-SR-SCH School Source Reduction Programs	<p>CCCSWA schools outreach program includes instruction and assistance on recycling, organics recycling, and source reduction. The Agency has begun working with Sodexo who serves some of the schools to use reusables during lunch.</p>
<input checked="" type="checkbox"/> 1050-SR-GOV Government Source Reduction Programs	<p>CCCSWA and member agency staff practice paper reduction through double-sided copying and use of emails. Staff members also use reusable ceramic cups, plates, and utensils in break rooms. Use of tablets and laptops that contain meeting agendas and documents are also used.</p>
<input checked="" type="checkbox"/> 2030-RC-OSP Commercial On-Site Pickup	<p>Single stream recycling collection is offered to all businesses. Services are provided at no additional cost. Commercial recyclables are taken to Mt. Diablo Resource Recovery in Pittsburg CA for processing. CCCSWA passed Ordinance No. 15 -1, the Administrative Citation Ordinance, in 2016. Reported weight includes both commercial and multi-family collected tons.</p>
<input checked="" type="checkbox"/> 2040-RC-SFH Commercial Self-Haul	<p>Self haul tons are represented under other programs (tires, biomass, etc.)</p>
<input checked="" type="checkbox"/> 2050-RC-SCH School Recycling Programs	<p>The CCCSWA Schools Outreach Program assists students, teachers, and school staff to participate in waste prevention, recycling and composting activities. Weekly and as-needed recycling and organics service is provided by Republic Services at no additional cost. The CCCSWA uses a 3rd party contractor to implement the schools outreach program, which includes, among other elements, school assemblies and lesson plans, bins and other supplies, the Wastebusters award program to recognize schools that have achieved milestones in waste prevention and recycling, a high school senior internship program, and waste diversion scholarships for high school seniors. Tons is recyclable materials only.</p>
<input checked="" type="checkbox"/> 2060-RC-GOV Government Recycling Programs	<p>CCCSWA Member Agencies routinely recycle mixed paper, office paper, newspaper, cardboard and containers in their office/admin areas. Signs are used in photocopy areas and break rooms as reminders. Many desks and work areas have dedicated recycling collection containers. Maintenance areas separate scrap metal, asphalt/concrete, green waste, motor oil, e-waste, and vehicle batteries for recycling. Collected weights are not recorded at this time</p>
<input checked="" type="checkbox"/> 3020-CM-COG Commercial On-Site Greenwaste Pick-up	<p>Franchise Agreement with Republic Services; collection of organic material from commercial and MF accounts including green waste, food scraps, clean wood waste, and uncoated food soiled paper. Residents may use BPI-Certified Compostable Bags, paper bags and newspaper to contain food scraps. Tons include MF and commercial business tons. Commercial food waste is reported separately. Tons include MF and commercial business tons</p>
<input checked="" type="checkbox"/> 3030-CM-CSG Commercial Self-Haul Greenwaste	<p>Self haul of commercial greenwaste occurs at the Martinez Transfer Station.</p>
<input checked="" type="checkbox"/> 3035-CM-COR Commercial Organics Recycling	<p>Franchise Agreement with Republic Services; collection of organic material from commercial and MF accounts including green waste, food scraps and uncoated food soiled paper. Residents may use BPI-Certified Compostable Bags, paper bags and newspaper to contain food scraps. Tons include MF and commercial business tons. Commercial food waste from restaurants and other high-volume food generated is collected separately from other commercial and MF organics and is reported under program 3040.</p>

<input checked="" type="checkbox"/> 3040-CM-FWC Food Waste Composting	<p>740 restaurants and other high-volume commercial food generators participated in commercial food waste collection at the conclusion of 2023. Source separated food material is taken to the EBMUD Water Treatment Facility in Oakland for digestion where resulting biogas is captured and burned to produce electricity. Commingled organic materials (green waste, food scraps, uncoated food soiled paper) from other commercial and MF customers are collected separately from the commercial food scrap program are composted at the Forward Composting Facility outside of Manteca. The tons from the commingled commercial organics program are reported under program 3035.</p>
<input checked="" type="checkbox"/> 3050-CM-SCH School Composting Programs	<p>Schools can participate in both organics recycling programs CCCSWA provides. Schools send organics to Forward compost facility or to EBMUD for digestion. Republic Services and the CCCSWA schools program team works with each school to assess needs and implement the program.</p>
<input checked="" type="checkbox"/> 3060-CM-GOV Government Composting Programs	<p>CCCSWA member agencies do not practice on-site composting but some chip and grind green waste material and wood for use as mulch and soil amendment. Collection tons are not tracked separately at this time</p>

## SRRE Programs

Program Name	Program description
<input checked="" type="checkbox"/> 1010-SR-BCM Backyard and On-Site Composting/Mulching	CCCSWA continues to operate a backyard home composting program that offers free workshops, reduced cost compost bins, CompostSMART workshop series, and a home composting certification (Republic Services monthly bill credit written into the Franchise Agreement), and other outreach and education.
<input checked="" type="checkbox"/> 1060-SR-MTE Material Exchange, Thrift Shops	CCCSWA holds a Franchise Agreement with Mt. Diablo Resource Recovery (MDRR) to operate a curbside reuse program (Reuse & Cleanup Days Program). This program offers bi-annual curbside collection of items for reuse, including clothing, small furniture, appliances and e-materials, toys, houseware, books, bicycles, and more. The collected reusable items are donated to local or regional charities for distribution.
<input checked="" type="checkbox"/> 2000-RC-CRB Residential Curbside	Single family residential households are served by weekly, single-stream, curbside collection, in blue recycling cart, ranging from 32-gallons to 96-gallons. Collected materials are sent to the Mt. Diablo Resource Recovery (MDRR) facility in Pittsburg CA for processing.
<input checked="" type="checkbox"/> 2010-RC-DRP Residential Drop-Off	CCCSWA does not operate a facility or drop off program. Residents are encouraged to use CCCSWA curbside programs and local drop off and CRV at the Concord Recycling Center
<input checked="" type="checkbox"/> 2020-RC-BYB Residential Buy-Back	The service area struggles to offer CRV buy back options for its generators.
<input checked="" type="checkbox"/> 3000-CM-RCG Residential Curbside Greenwaste Collection	Residential organics collected weekly by Republic Services and processed by composting at Forward compost facility in Manteca CA. All green material, clean wood waste, all food scraps and uncoated food-soiled paper accepted in program. Kitchen food scrap container provided upon request for no additional cost once every two years to encourage participation of food scraps composting. Residents can use newspaper, paper bags or BPI-Certified compostable bags only to contain food. All other compostable and bio plastics are NOT accepted in program.
<input checked="" type="checkbox"/> 3010-CM-RSG Residential Self-haul Greenwaste	Residential self-haul of green material is not recorded separately from other self-hauled activity

## SRRE Programs

Program Name	Program description
<input checked="" type="checkbox"/> 1000-SR-XGC Xeriscaping/Grasscycling	CCCSWA member agencies continue the practice of grasscycling as part of turf area maintenance in public parks and civic areas. Estimates of grasscycling diversion are based on reported total turf area for each member agency and CalRecycle estimate of 350 lbs clippings/1000 SF for actively grasscycled turf areas.
<input checked="" type="checkbox"/> 2070-RC-SNL Special Collection Seasonal (regular)	Holiday tree collection (for composting) throughout the CCCSWA service area in early January by the franchised hauler, Republic Services.
<input checked="" type="checkbox"/> 4020-SP-TRS Tires	
<input checked="" type="checkbox"/> 4030-SP-WHG White Goods	
<input checked="" type="checkbox"/> 4040-SP-SCM Scrap Metal	Republic Services reports to the CCCWSA the amount of scrap metal brought to the Martinez Transfer Station by self haulers from the service area.
<input checked="" type="checkbox"/> 4050-SP-WDW Wood Waste	
<input checked="" type="checkbox"/> 4060-SP-CAR Concrete/Asphalt/Rubble	CCCSWA Ordinance No. 12-2 (as Amended by 19-1) requires use of permitted transporters and certified facilities. All Member Agencies have adopted a C&D Ordinance and/or the CalGreen code. All Member Agency building permit staff use Green Halo online C&D tracking paid for by CCCSWA annually. The diversion number, 15748 tons, is total C&D diversion reported by our member agencies through Green Halo for 2023.
<input checked="" type="checkbox"/> 4090-SP-RND Rendering	
<input checked="" type="checkbox"/> 6010-PI-EIN Economic Incentives	CCCSWA provides a variable can rate structure to incentivize use of smaller capacity landfill cart service levels that reduce cost. Franchised recycling/organics services for all sectors are offered at no additional cost to refuse service creating an important incentive to maximize use of recycling/organics services and reduce refuse service with lower cost benefit. CCCSWA continues to offer a \$1.50 per month discount on the garbage rate for single-family home composting and offers reduced cost home compost bins, both to encourage home composting. CCCSWA offers grant/community fund budget for waste diversion projects throughout the service area upon request and approval. CCCSWA provides Student Waste Diversion Scholarship/reward, and CCCSWA works with schools consultant to provide WasteBuster reward to schools and janitorial staff. Economic Incentives do not produce a reportable diversion weight.

## Household Hazardous Waste Programs: Central Contra Costa Solid Waste Authority (CCCSWA) (2023)

### SRRE Programs

Program Name	Program description
<input checked="" type="checkbox"/> 9000-HH-PMF Permanent Facility	Central Contra Costa Sanitary District (CCCSD) HHW Facility continued as the primary public disposal facility for hazardous materials in central Contra Costa County. The CCCSD HHW facility provides convenient and safe hazardous waste drop-off services for central Contra Costa County residents and eligible small businesses. CCCSD also operates a reuse program where selected HHW materials such as paint, garden products, automotive products and cleaners are offered at no cost for reuse. Central San also manages the medication disposal boxes in the CCCSWA service area. Tons are reported for HHW and medications. Information about programs can be accessed from the CCCSWA website: <a href="https://www.recyclesmart.org/hhw/">https://www.recyclesmart.org/hhw/</a> .
<input checked="" type="checkbox"/> 9010-HH-MPC Mobile or Periodic Collection	n/a
<input checked="" type="checkbox"/> 9020-HH-CSC Curbside Collection	Curbside collection of motor oil is performed on-call. Residents call the service provider to request gallon jug(s). Used oil is placed in the jug, sealed, and placed out curbside for collection. Calculation for 2023 collected weight: 3407 Gallons x 7.5 lbs/gallon / 2000 pounds per ton = 12.78 tons. Batteries, cell phones and CFLs are collected curbside for SF only.
<input checked="" type="checkbox"/> 9030-HH-WSE Waste Exchange	The Central County HHW collection facility, operated by the Central Contra Costa Sanitary District (CCCSD), accepts and makes selected materials, including latex paint, fertilizer, and household cleaning agents, available for reuse. This service is free for Contra Costa residents. This activity does not produce a reportable weight specific to the CCCSWA service area.
<input checked="" type="checkbox"/> 9045-HH-EWA Electronic Waste	Franchise Agreement with Republic Services; e-waste collection for a fee for SF, MF and Commercial accounts. Board approved rate for e-waste on - call collection beginning 3/3/2021 (\$50 for single family homes only, does not apply to MF and Comm).
<input checked="" type="checkbox"/> 9050-HH-OTH Other HHW	Reported 2023 tons include medical sharps collection (free drop off in each MA), CFLs (single family curbside), Household Batteries (single family curbside, reuse day program) and retail battery drop off program

## Disposal Rate Calculation: Central Contra Costa Solid Waste Authority (CCCSWA) (2023)

### Definition of Terms

**"Disposal"** - [Resources Code – PRC 40192](#). (a) Except as provided in subdivisions (b) and (c), "solid waste disposal," "disposal," or "dispose" means the final deposition of solid wastes onto land, into the atmosphere, or into the waters of the state. (b) For purposes of Part 2 (commencing with Section 40900), "solid waste disposal," "dispose," or "disposal" means the management of solid waste through landfill disposal, transformation, or EMSW conversion, at a permitted solid waste facility, unless the term is expressly defined otherwise. (c) For purposes of Chapter 16 (commencing with Section 42800) and Chapter 19 (commencing with Section 42950) of Part 3, Part 4 (commencing with Section 43000), Part 5 (commencing with Section 45000), Part 6 (commencing with Section 45030), and Chapter 2 (commencing with Section 47901) of Part 7, "solid waste disposal," "dispose," or "disposal" means the final deposition of solid wastes onto land.

**Reporting-Year Disposal Amount (tons)** – Defaults to the total tonnage disposed in the Reporting-Year by a jurisdiction as reported to the Recycling and Disposal Reporting System (RDRS). This total disposal contains all jurisdiction waste that was disposed in CA landfills (including Green Material ADC), transformation facilities, EMSW facilities, and exported out-of-state (including Green Material Potential Beneficial Reuse Exported), except for declared disaster debris disposal and disposal in Class II facilities, as those two types of tonnage are no longer tracked by jurisdiction of origin. Any changes will require you submit a [Reporting Year Disposal Modification Certification Sheet \(PDF\)](#). See [User's Guide](#) or contact LAMD representative if uncertain.

**Disposal Reduction Credits** – the EAR calculator will subtract these credits from your requested total in the Reporting-Year Disposal Amount field. Requesting credits will require you submit a [Reporting Year Disposal Modification Certification Sheet \(PDF\)](#). Descriptions of these credits can be found on that sheet. See [EAR User's Guide](#) or contact LAMD representative if uncertain.

**Reporting-Year Population** – January 1st estimate of the number of inhabitants occupying a jurisdiction in the Reporting-Year as prepared by the California Department of Finance (DOF)

**Reporting-Year Employment** – the estimate of the annual average number of employees by jurisdiction in the Reporting-Year as prepared by the California Employment Development Department (EDD).

## Calculation Factors: Central Contra Costa Solid Waste Authority (CCCSWA) (2023)

### Disposal Rate Accuracy

1. Are there extenuating circumstances pertaining to your jurisdiction's disposal rate that CalRecycle should consider, as authorized by the [Public Resources Code Section 41821\(c\)](#)? If you wish to attach additional information to your annual report, please send those items or electronic files to your LAMD representative; include a brief description of those files below. If so, please use the space below to tell CalRecycle.

Yes. Please use the space below to tell CalRecycle.

No.

### Calculation Factors

**If either 1. Alternative disposal or 2. Deductions to RDRS boxes are checked**, please complete, and sign the [Reporting Year Disposal Modification Certification Sheet \(PDF\)](#) and save to your computer. You may enter the data and save the Disposal Modification Form to your computer. Then either upload the sheet and supporting documentation using the [Document Upload Section](#) before submitting your report, or mail, e-mail or FAX to CalRecycle within 7 business days of submitting your report. If you are only claiming report-year disposal deductions for waste transported to a certified Transformation facility, you do not need to fill out the certification request.

**If 3. Green Material ADC (AB 1594) box is checked:** Pursuant to [Public Resources Code \(PRC\) Section 41781.3](#) [(AB) 1594 ([Williams, Chapter 719, Statutes of 2014](#))], beginning in the 2017 EAR jurisdictions are required to include information on plans to address how green material that is being used as ADC will be diverted. Jurisdictions can review disposal facilities that assigned green material ADC and the amount by using the [RDRS Reports: Jurisdiction Disposal and Beneficial Reuse by Destination](#).

More information and brief instructions for using the inflow/outflow map is available on [CalRecycle's Green Material Used as Alternative Daily Cover \(ADC\)](#) webpage.

- 1. Alternative disposal tonnage
- 2. Deductions to RDRS disposal tonnage
- 3. Green Material ADC (AB1594)

**2023 Central Contra Costa Solid Waste Authority (CCCSWA) Green Material ADC (tons): 0.00**

- Our jurisdiction has submitted a request to facilities that have assigned green material ADC to our jurisdiction to adjust the tons assigned as we believe they may be misallocated
  - For reporting entities that check this box, the following questions may still require answers if there was green material assigned at the time this EAR was made available for editing. If the tons were changed in RDRS after the date the EAR opens for reporting by jurisdictions, please note that revised information in the answer to the first question below including the tons adjusted, facility name(s), date(s) the changes were made in RDRS system.

1. Please describe in the box below the jurisdiction's plans to divert green material that is being used as ADC.

2. If the jurisdiction is not meeting the requirements of Section 41780 as a result of not being able to claim diversion for the use of green material as alternative daily cover, then please identify and describe the barriers to recycling green material.

3. If the jurisdiction is not meeting the requirements of Section 41780 as a result of not being able to claim diversion for the use of green material as alternative daily cover, and if sufficient capacity at facilities that recycle green material is not expected to be operational before the jurisdiction's next review pursuant to Section 41825, then the jurisdiction should include a plan to address the barriers identified in the second question that are within the control of the jurisdiction.

Although you will be able to submit your electronic Annual Report without completing a disposal modification form, your Annual Report will not be deemed complete until it is completed and received by CalRecycle. Contact your [LAMD representative](#) for details.

### Rural Petition for Reduction

Was your jurisdiction granted a Rural Petition for Reduction by CalRecycle? See [Jurisdictions with an Approved Petition for Rural Reduction](#). For more information regarding Rural Petition for Reduction, go to [Rural Solid Waste Diversion Home Page](#).

- Yes. If yes, please discuss whether the conditions under which the petition was granted still apply.
- No.

### Newly Incorporated Cities

Since the date of your last Annual Report, are there any newly incorporated cities within your county/regional agency?

- Yes. Enter new city name, incorporation date, and population at time of incorporation in the text box below.
- No.

### Source Reduction and Recycling Element (SRRE)

Does the SRRE need to be revised?

- Yes. Explain below why the SRRE is not adequate, the revisions that are necessary and the timeline for making those revisions. Note: Diversion program information is updated in each Annual Report, SB 1066 time extension or alternative diversion requirement report, compliance order, etc. So, before taking any action on the revision process, please contact your LAMD representative for further discussion and additional information.
- No. Please add any notes or updates below.

## Household Hazardous Waste Element (HHWE)

Does the HHWE need to be revised?

- Yes. Explain below why the HHWE is not adequate, the revisions that are necessary and the timeline for making those revisions. Note: Diversion program information is updated in each Annual Report. So, before taking any action on the revision process, please contact your LAMD representative for further discussion and additional information.
- No. Please add any notes or updates below.

## Non-Disposal Facility Element (NDFE)

Describe below any changes in the use of [non-disposal facilities](#), both existing and planned (e.g., is the jurisdiction using a different facility within or outside of the jurisdiction, has a facility closed, is a new one being planned).

n/a

Are there currently any non-disposal facilities that require a solid waste facility permit located (or planned to be sited) in your jurisdiction that are not identified in your NDFE?

- Yes. Your NDFE may need to be amended before the permit for this facility comes before CalRecycle for concurrence. If the facility is not identified in the NDFE, the permit may not be in conformance with your NDFE, and the permit may be denied. See CalRecycle's NDFE Guidelines at <https://www.calrecycle.ca.gov/LGCentral/Library/Policy/NDFEGuide.htm> and contact your LAMD representative if you have any questions about the need to amend your NDFE.
- No. Please add notes or updates below.

n/a

## Summary Plan

Does the Summary Plan need to be revised?

- Yes. Discuss below. Include a time schedule for revising the Summary Plan. Please contact your LAMD representative to request additional information and guidance.
- No. Please add any notes or updates below.

n/a

## Areas of concern

Did CalRecycle require your jurisdiction to address any areas of concern when determining the adequacy of your solid waste planning documents, or any of their elements?

- Yes. Below, discuss the actions taken to address the areas of concern.
- No.

## Conditional approvals

Did CalRecycle give conditional approval to any of your solid waste planning documents, or any of their elements?

- Yes. Below, discuss the actions taken gain full approval of the plan/elements.
- No.

## Total County or Agency Wide Disposal Capacity

If you do not currently have 15 years of disposal capacity, describe your strategy for obtaining 15 years of capacity.

n/a

Based on the best available estimates of current and future disposal, how many years of disposal capacity does your county or regional agency have?

43 Estimated years entered is the amount of remaining Countywide Disposal Capacity, consistent with the number being reported by Contra Costa County.

## Siting Element Adequacy

Does the Siting Element need to be revised? The Siting Element will need to be revised if you have less than 15 years disposal capacity and have not described a strategy for obtaining 15 years disposal capacity.

- Yes. In the box below, provide a time schedule for revising your Siting Element. Also discuss new disposal sites or disposal strategies that changed during the report year, and how those strategies will allow the county or regional agency to attain 15 years of disposal capacity. Please also contact your LAMD representative for additional information and guidance.
- No. This county or regional agency has more than 15 years of disposal capacity, has experienced no major changes in disposal practices in the past year, and expects no such changes in the near future. Please include any notes or updates below.

<b>Jurisdiction Notes:</b> CCCSWA provides a variable can rate structure to incentivize use of smaller capacity landfill cart service levels that reduce cost. Franchised recycling/organics services for all sectors are offered at no additional cost to refuse service creating an important incentive to maximize use of recycling/organics services and reduce refuse service with lower cost benefit. CCCSWA continues to offer a \$1.50 per month discount on the garbage rate for single-family home composting and offers reduced cost home compost bins, both to encourage home composting. CCCSWA offers grant/community fund budget for waste diversion projects throughout the service area upon request and approval. CCCSWA provides Student Waste Diversion Scholarship/reward, and CCCSWA works with schools consultant to provide WasteBuster reward to schools and janitorial staff. Economic Incentives do not produce a reportable diversion weight.
